

3Skill 2-Months Internship Program

Empowering Students with Real-World Skills and Hands-On Experience

Program Overview

The **3Skill 2-Months Internship Program** is a carefully designed initiative that bridges the gap between academic learning and professional experience. It provides students with both intensive training and hands-on project work to prepare them for real-world challenges. This program is ideal for students who want to build strong technical and practical foundations while working on real industry-level projects.

Month 1: Intensive Training Phase

During the first month, students undergo rigorous training sessions in their chosen domain. Our mentors, industry experts, and trainers guide participants through the core concepts and real-world applications. Each session is structured to ensure conceptual clarity and hands-on learning.

Training Highlights:

- Live online classes with experienced mentors
- Daily assignments and concept-based tasks
- Doubt-solving sessions and progress evaluations
- Access to recorded sessions and study materials

Month 2: Project-Based Internship

In the second month, students transition into project-based learning. They apply their acquired skills to real-world projects under mentor supervision. This phase is designed to help participants experience teamwork, creativity, and problem-solving at a professional level.

Project Phase Includes:

- Work on live or simulated industry projects
- Weekly progress tracking by mentors
- Presentation and feedback sessions

- Certificate of Completion and Performance Report

Special Reward: Vacation Trip for Top Performers

At 3Skill, we believe in recognizing and rewarding exceptional talent. To encourage dedication and performance, the **top-performing students** of each internship batch will be offered a **fully sponsored vacation trip**. This trip is our way of celebrating your hard work, creativity, and consistency throughout the program.

Trip Details:

- Top performers are selected based on project quality, consistency, and mentor feedback.
- The trip will be organized to a beautiful destination near the student's location.
- All travel and accommodation costs will be covered by 3Skill.
- The trip includes team-building activities, networking sessions, and exploration time.

This initiative not only serves as a motivation for students to give their best but also strengthens the bond between 3Skill and its growing community of learners.

Join the 3Skill Internship Program

Start your journey with 3Skill today and transform your learning experience into a practical, impactful, and rewarding adventure. Build your skills, work on projects, and earn opportunities that shape your career.
